1found1

CHECKLIST

Solo founder or co-founder? Your checklist

Answer each question honestly. The more answers are no, the more a co-founder helps.

- [ ] Can I build the first version of the product myself?
- [ ] Can I talk to customers and sell every week?
- [ ] Can I raise money or fund the company alone?
- [ ] Can I carry months without progress on my own?
- [ ] Do I have people who challenge my decisions?
- [ ] Do I want to keep full control and all the equity?
- [ ] Which skill will the company need every week for years that I do not have?
- [ ] If I look for a co-founder: how will we test the fit with a small project first?
